

///welt<sup>2</sup>raum august 2004 tübingen///  
/Call for Participation - Camp Project from 2/8 to 9/8/04/  
///expected location: festplatz///

**The Camp Project represents an open platform in order  
to facilitate cultural, political and artistic exchange.**

Horizontality, Openness, Transparency, Self-management, Plurality and Equality are important basic principles of the Free Camp Project Tübingen enabling the breaking out of the status quo of society.

Basic-infrastructure will be provided in the camp – to realise this goal much support and also some money is still needed. The resulting framework will then be open to be filled with life by all participants. In order for this to happen, YOU are called to ACTIVELY participate in the camp project – because the camp project depends on the commitment of everyone.

Exchange of information and experiences, cooperation, living together, common activities, creativity – these are just a few of the key words. On the thematic field the desire is to have a focus on work, that is directly issue-oriented and interactive and therefore it would be good if the participation of organisations and groups would go way beyond the distribution of pamphlets and long frontal-type speaks focussing on alternative types of activities. Besides the „What?“ with which the space is filled a special emphasis is put on the „How?“. And everyone can participate – this is definitely not for experts only!

**Well, then... participate!**

**Workshops, activities, discussions, presentations,  
exchange of experiences, critical local walks... - take part,  
present, make music, display, discuss, act, watch, listen...**

There will be the opportunity to realise spontaneous activities at all times (free tents, open spaces, daily program newsletter...)

The camp itself is supposed to function as a NOLOGO-area. Anyway there will be opportunities for groups to have info-points, put up their own tents and promote themselves and their issues.

**All are invited to live in the camp!** Please bring along all the necessary equipment (tent, mattress, sleeping bag, dishes, silver ware) if possible. We will try to provide some tent space as well. Please advise us ahead of time if you need any. Camping will be possible from 2nd to 9th of august 2004.

On the way to the camp and during the camp itself any kind of support is needed and most welcome. Just get in touch via phone or email or join one of our open meetings:

**Every wednesday, 7 pm, Schlossbergstraße 23, Tübingen, Germany**

Neither for the camp nor for the activities there will be an inscription deadline. Nevertheless in order to facilitate planning it is very important that you communicate what you want to do in the camp (work shop, show, exhibition, etc.) as soon as possible or from when till when you would like to live there. Get in touch!

**Email: [welt2raum@jpberlin.de](mailto:welt2raum@jpberlin.de)**

**Internet: [www.welt2raum.de](http://www.welt2raum.de)**

**Phone: +49 (0) 7071/747349 or +49 (0) 176/20812823 (after 9/7)**

**///Let's look forward to a thrilling time!!!!///**
